

HAFEES AHAMED

Computer Engineering Undergraduate

Computer Engineering undergraduate at the University of Peradeniya, building at the intersection of hardware and software. Experienced in full-stack web development with React and Spring Boot, low-level systems programming in C and ARM Assembly, and desktop application development in C#. Strong team contributor and fast learner – open to flexible part-time roles where I can deliver value while growing professionally

Education

B.Sc Eng (Hons)

in Computer Engineering

University of Peradeniya

2024 - Present

Diploma in IT

Esoft Metro Campus

2023 - 2024

Skills

Frontend

React.js, HTML5, CSS3,
JavaScript, Three.js

Backend

Java Spring Boot,
Python (Flask), REST
APIs

Languages

Java, Python, C, C#,
JavaScript, ARM
Assembly, SQL

Databases

MySQL, MS SQL Server

Tools & DevOps

Git, GitHub, Docker,
docker-compose,
Wireshark

Experience

QA Analyst

AIESEC IN MALAYSIA

Apr 2026 - Present

Selected as QA Analyst for the EST Marketing Team (25/26) by attending an interview.

I am responsible for quality assurance processes supporting the entity's marketing operations and ensuring consistent delivery standards across international programmes

Projects

Web-Based PAR Index System

Web-Based PAR Index System Led a team of 4 to build a full-stack web app for automated orthodontic PAR index measurement from 3D dental scan models. Built with React, Spring Boot, Flask ML microservice, Three.js, MySQL, and Docker.

Mini Command-Line Shell

Mini Command-Line Shell A Unix-like shell built entirely in ARM32 Assembly, supporting custom commands on Linux. Demonstrates low-level system calls, memory management, and direct hardware interaction without any high-level abstractions.

libtiny3d: 3D Software Renderer

libtiny3d: 3D Software Renderer A lightweight 3D graphics library written in C that recreates the core rendering pipeline entirely in software – no GPU required. Supports geometric primitives, transformations, and basic lighting from scratch.
